Course Outline

This package includes these courses

- Beginner AutoCAD (18 Hours)
- Intermediate AutoCAD (12 Hours)
- Advanced AutoCAD (18 Hours)

Beginner AutoCAD

In this class, you'll learn basic drawing and modifying techniques for drafting and technical drawing, using AutoCAD to create drawings that can be used to build real objects both mechanical and architectural. We'll cover basic methods of printing and plotting layouts and sheets, working between model space and paper space, and scaling drawings through viewports. Learn techniques for inserting blocks, making text, dimensioning drawings, and working with layers and templates.

Intermediate AutoCAD

In this class, you will learn how to create and effectively set up templates by setting units, drawing limits, and scales, defining layouts for printing sheets and creating styles.

Advanced AutoCAD

In this class, you will be introduced to advanced techniques and learn how to be proficient in your use of AutoCAD.
