Course Outline

This package includes these courses

- Excel for Business Fundamentals (6 Hours)
- Intermediate Excel for Business (6 Hours)
- Financial Modeling Bootcamp (18 Hours)

Excel for Business Fundamentals

Master the core Microsoft Excel functions in this one-day course. Automate calculations and data entry. Apply formatting to text and cells to make your spreadsheet scannable and visually appealing. In this hands-on training, you will learn all the basics to use Excel as your primary data processing tool. You'll produce polished and print-ready spreadsheets while learning tricks to accelerate your workflow.

Intermediate Excel for Business

Go from beginner to experienced professional: summarize data with Pivot Tables, write advanced functions including VLOOKUP, and learn techniques to expedite your workflow. Use tools and formulas to format text. Manipulate data visuals with advanced charting skills. Use statistical formulas like COUNTIFS and SUMIFS to learn more about your data. At the end of intermediate Excel, you'll unlock powerful techniques that will help you complete tasks more quickly.

Financial Modeling Bootcamp

Learn the skills you need to become a top financial analyst: advanced Excel, financial modeling, corporate finance, and accounting. Build a financial model to value a public company, and learn industry best practices from experienced investment bankers and analysts.
