Course Outline

This package includes these courses

- Power BI Bootcamp (12 Hours)
- Power BI Advanced (6 Hours)

Power BI Bootcamp

- Create measures to find SUM, COUNT, MAX, and more with a click of a button
- Connect data sources to a relational model
- Make performance reports and time intelligence reports
- Use the DAX language to power your data visualizations

Power BI Advanced

This advanced Power BI course focuses on building more reliable data models using proper relationships, filter flow, fiscal and calendar date tables, Row-Level Security, and more.

- Build better data models by understanding relationships, cardinality, and cross-filter direction
- Design reliable data models and avoid common modeling mistakes
- Create and use hierarchies to organize and drill into data
- Control visual order with custom sort columns
- Create reusable date tables supporting fiscal and calendar years
- Add parameters to make reports interactive and flexible
- Implement Row-Level Security (RLS) with Static and Dynamic roles
