

Advanced Excel & Real Estate Modeling

In this 2-day course, you will master the advanced Excel tricks, techniques, and tools financial analysts use to build and audit financial models. This will also cover real estate fundamentals used to create real estate models. You will create a real estate acquisition model using assumptions for the purchase price, financing, operating performance, and exit cap rate.

Group classes in NYC and onsite training is available for this course. For more information, email contact@nyimtraining.com or visit: <https://mimi.training-nyc.com/courses/advanced-excel-real-estate-modeling>
