

Premiere Pro Bootcamp

You'll learn how to organize and import footage, exporting options, how to use the Timeline, create titles, work with PSDs, use audio tracks, and more. Then, we'll dive into more advanced features including multicam editing, color correction, speeding up footage, and stop-motion loops. By the end of the course, you'll be able to add Adobe Premiere to your design repertoire, and you'll have some portfolio-worthy projects under your belt.

Group classes in NYC and on-site training is available for this course.
